Description

1. This SEB announces the publication of S&EP Leaflet 10/2017 – Competence Mapping. The leaflets contains a series of Competence Maps, each of which defines levels of generic (SQEP 1) System Safety and Environmental Protection competence that apply to staff with responsibilities in those two areas. The leaflet supersedes S&EP Leaflet 04/2011 (Role Profiles). The Competence Maps are designed to complement the Role Profiles published by the Engineering Function and provide an additional level of detail to help in their consistent application.
2. The revised leaflet will shortly be published on the ASG.
